

Built on research based principles of music therapy, our home-based education kit uses music to teach, special needs childrens' communication and social skills regardless of their abilities but requires no prior music training to execute. Designed to create a positive learning environment that boosts children's self-confidence, self-expression, our kit helps parents build closer relationships with their children through a series of simple, fun learning, interactive music activities.

ACHIEVEMENT

- Awarded entry into **MaGIC Academy's Social Enterprise (SE) Accelerator Programme Cohort 3**. We were also invited to promote our kit at the **National Early Intervention Council's for special needs education conference** in November, 2016, organized by **NECIC** and **Malaysian Care (Mcare)**.

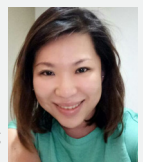

CURRENT STATUS

- Completed problem **interview stage**.
- Developed first phrase of **MVP**
