SMART MONEY KIT Bright Kids Smart Money

Smart Money Kit: Bright Kids Smart Money an alternative to help parents and teachers in increasing financial literacy among kids. It is a comprehensive educational product with numerous activities arranged according to the children's ages and developmental stages in between six to 12 years old. The accompanying guidebook contains each activity's objectives, timing, requirements and instructions for easy reference. It also comprises six basic units covering financial management education i.e. getting to know money, financial goals, needs vs. wants, saving, expenditure and budgeting, and basic concepts of Islamic banking. The most important advantage of this product is that all the items and contents applied Islamic financial concepts and moral values. There is no other financial games in the market have this unique value so far.
